Overhaul of Ocean Providence in the USA: 40-Day Course (Nov. 1 - Dec. 13, 1988)

Starting from November 1 until December 13, 1988, True Parents started a 40-day tour to visit different Ocean Providence bases across United States, in order to perform a complete overhaul of the providence they had been deeply invested in since August 1, 1974.

Starting with a restaurant in Los Angeles, they visited each and every field of the Ocean Providence, from fish businesses, Ocean Churches, commercial fishing bases, boat factories, fish farms, to processing plants. They listened to reports from each leader and directly assessed the situation.

In order to perform the assessment, they gathered all related personnel to a hotel in West Palm Beach, Florida. In that conference, True Father asked for the creation of new processed fish products, transformation of Japanese restaurants into seafood restaurants, charter boat pioneering and fishing, expansion of 30 Ocean Church centers to 300 locations. He urged members to challenge conventional approaches and to take a qualitative leap and quantitative expansion in every field.

In addition, he decided on the production of 52ft boats and their placement in 30 Ocean Church centers. He also determined to establish the "Heavenly Kingdom Construction Fund."

Ocean Providence Pioneering on the Hudson River - from 1989

In the spring of 1989, Hudson River Striped Bass Fishing Project began in full gear. For the next 15 years, fishing and boat training was held as a springtime annual event with some 1000 brothers and sisters participating.

After the Striped Bass season on the Hudson is over, True Father went to Long Island for Blackfish, New York Harbor for Fluke, and in autumn, he again went out for Striped Bass fishing on the Hudson River downstream. He always stood on the forefront of the pioneering.

He went out from East Garden regardless of rain or storm, saying that "I cannot stay still while people are dying from hunger at this very moment. We must expand and develop Ocean Providence quickly." He continuously invested in the Ocean Providence, going beyond his limit.

Thus, "Hudson Spirit" was born.

OC Leaders Replacement Phase 1989 ~ 1993

The years between 1989 and 1993 was a period in which the leaders of Ocean Providence were greatly shifted as a stepping stone to further develop the Ocean Providence in Korea, Japan, and the USA.

- Sept 1989: Japan-US Joint workshop in Alaska
Calligraphy for Japan, "Million Victories Tireless Work"
Mr. JooChan Park was appointed as the second IOE Chairman
President GuBae Park was moved from the position of Ocean Providence leader to become the leader in Alaska.
- Sept 1990: Formation of Alaska Corps (President Kuboki was appointed as its leader)
Production of 20 boats for Japan/ Formation of American fishing tour for Japanese investors/ God's Wind Special Economic Battalion.
Charter boats in Hawaii (Renegade) and Alaska (Urascal)
- Sept 1991: Switch between Japanese leaders under President Kamiyama (in the US) and Japanese leaders under President Furuta (in Japan) - in charge of Ocean Providence
Japan received instructions to start producing boats, to open fishing tackle shops, and to start Ocean Church.
- Nov. 30, 1991: True Parents' visit to North Korea; Talk with President Kim Il Sung
- Jan. 1, 1993: First year of Completed Testament Age proclaimed
- March 1993: President SangGwon Park was appointed as the 3rd IOE President

Alaska Corp Formation

In September of 1990, leaders from Japan were gathered at Kodiak, Alaska, and an Ocean Workshop was held in order to form what is called the "Alaska Corp." President Kuboki was appointed as the person in charge. It was in essence an organization responsible for Japanese Ocean Providence, but its main mission was to work with America to mobilize Japanese leadership to Ocean Providence in order to affirm national direction and mission.

Mission of Alaska Corp (Sept. 1990 at the workshop of its formation)

1. Alaska Corp is to be the driving force for promoting American fishing tours.
2. Alaska Corp is to be a base for the construction of Ocean Church for the youth development in Japan.
3. Alaska Corp is to become the messiah for the resolution for world hunger problem.
4. Alaska Corp is a Kamikaze Special Economic Strike Team that has received God's mission.
5. Alaska Corp is to become the pillar for human resources education focused on VIP.

Chapter 1

“Dawn of Ocean Era”

END

After this, starting in the year 1993, we move from "Age of Ocean Providence" (Preparation Period for Ocean Providence) into the "Period of Providence of Ocean Hobby Industry." Please continue to Chapter 2, "Investments toward the Completion of an Ideal Boat." Chapter 2 will introduce how True Father had pursued the ideal boat building fit for the Ocean Era and the Period of Providence of Ocean Hobby Industry in the 21st Century alongside the flow of main Providence.

INDEX
