# Dawn of Ocean Era

1963~1993

In this chapter we will introduce the beginning phase of the dawn of the Ocean Providence created by True Parents. The following will feature their pioneer work in the fields of commercial and sportfishing, such as fishing boat construction and fishery businesses spanning the oceans, rivers, and lakes, to all areas of the marine industry.

## Introduction to “Dawn of Ocean Providence”

Wherever True Parents went, one could constantly find Ocean Providence activities. It is said that True Father had invested two thirds of his life into ocean and its related activities.

There are several famous accounts of him engaging in fishing at pivotal moments such as: he went eel fishing right after he came out of Heung Nam Prison, when he arrived in America and was in a process of preparing the Belvedere property he also was going out fishing on the Hudson River, and the very next day after he was released from the Danbury Prison he caught a Jumbo Tuna in Gloucester, MA.

Even within the walls of Danbury Prison, a fellow inmate Mr. Bill Sheppard later testified that many of his stories were of his experiences while fishing. It is said that some inmates suspected True Father to be a reincarnation of fish.

There are times when we might get a false impression that fishing is simply his hobby, looking at how enthusiastically he goes out to sea. However, as the Second Coming and as True Parents who holds responsibility over indemnifying the human history and establishing the kingdom of heaven on earth and in heaven, would he simply use up to two thirds of his lifetime on a personal, worldly hobby and use tremendous amount of money on it?

It must be that there is a clear purpose that need accomplishing through Ocean Providence as the True Parents of mankind. It is clear that he had a certain heavenly calling for Ocean Providence also seen from the childhood testimony where he used to help people in the surrounding villages by providing eels that he caught.

From the beginning of Providence, Ocean Providence activities were important part of True Parents' activities and the development of Providence.

## “Dawn of Ocean Providence” Timetable

This period points to the 30 year period since 1963, the dawn of Ocean Providence, to the year 1993 when we entered the Age of the Providence of Ocean Hobby Industry. True Parents have developed and expanded Ocean Providence through the 20 year period mainly in the USA at its core, at the same time holding close their activities in Korea as the foundation.

## The Beginning of Ocean Providence: Launching of Cheon Seung Ho and Establishment of the Day of All Things - 1963

The Day of All Things (July 26, 1963) was established on top of the conditions set by the launching of Cheon Seung Ho (June 26) and 124 Couples Blessing (July 24). This time marks the beginning of the battle to resolve humanity's hunger and food problem, recover the ownership over God's creation, and to restore the dominion over the creation through the "Ocean Providence," centering on True Parents.

June 26, 1963	Launching of <i>Cheon Seung Ho</i>
July 24, 1963	124 Couples Blessing
July 26, 1963	Establishment of the <i>Day of All Things</i>

*"I built a boat in Korea named Boat of Heavenly Victory (Cheon Seung Ho). What victory? Heavenly victory, of course, is where Heaven has won victory because God's will has been fulfilled. I had already begun fulfilling God's will from long ago. I made the Boat of Heavenly Victory and talked about occupying the oceans of the world."*

*"The Pacific Rim Providence" Chapter 1: Twenty-first Century is the Oceanic Era*

\*The direct condition set for the establishment of "Day of All Things" was the launching of the boat, Cheon Seung Ho on June 26, signifying the beginning of the victory of heaven and earth. However, only on top of the foundation of the perfection of 1st and 2nd Blessings, the 3rd Blessing, the dominion over the creation, can be accomplished. Thus, 124 Couples Blessing on July 24, in a sense, a conclusion to the three prior continuous Blessing ceremonies that signified the grandparents (36 couples), the parents (72 couples) and the children (124 couples), also acted as another condition.

## Why Ocean Providence?: Connection Between Ocean Providence and the Restoration of Dominion Over All Things

Why did True Father start the Ocean Providence? And how did the boat, Cheon Seung Ho, become the condition for the establishment of "Day of All Things"?

That is because True Parents are striving to resolve humanity's food and starvation problems through the Ocean Providence.

Since humanity lost its Dominion over All Things due to the fall, it has been living with inherent starvation and food problems throughout its history. Even today, when we hold the technology to go out into space, the problem remains unsolvable. It clearly cannot be resolved by the efforts of selfish people and nations.

True Parents of humanity resolving the starvation/food problem is equivalent to humanity restoring the Dominion over All Things (Restoration of the Third Blessing). The fact that Cheon Seung Ho was offered as a condition for the establishment of the "Day of All Things" points to the fact that the restoration of the Dominion over All Things were to be fulfilled through Ocean Providence.

Every year, 20 million people die of starvation. That is 60,000 people a day. Is the President of the United States going to take responsibility for that? Will Gorbachev of the Soviet Union take responsibility? Who will take responsibility for this? Who in the world is going to do that? The True Parents and the siblings of the True Parents have to take responsibility for it. For this reason, all our work with the sea is something I have been planning and preparing for, over the last twenty years.

## The Realities of Mankind's Starvation and Food Problems

### The Food Problem Situation

What is the realities of today's starvation and food problems of the world? It is said that currently 60,000 people per day or 20 million people per year die from food shortage as the direct cause. At the same time, two thirds of humanity suffer from permanent food/calorie intake shortage.

### Current Resolution Efforts

- ❑ UN Food Program: It provides surplus food, but the effect is temporary
- ❑ Assistance from Advanced Nations: They provide guidance on agriculture, animal husbandry, and commercial fishing, but sees lack of actual results.
- ❑ UN Sponsored Food Summit:
  - Major leaders participate to discuss resolution to the problem
  - First Summit (1976) - Declaration to resolve the food problem in the next 20 years
  - Second Summit (1996) - Declaration to resolve half of the food problem. However in reality, no solution was found and the problem deepens.

The post-WWII rapid population growth (world population was 2.5 billion in 1945; it was 6 billion by 2000) and pollution problems due to modernizations around the world (global warming, environmental pollution) directly affects the food problem, which has become more and more murky and unsolvable. 80% to 90% of scientists and experts are pessimistic towards solving the food problem.

## Cause of the Food Problem

Why does humanity suffer from food problem? Its essence stems from the loss of its ability to have dominion over all things due the fall of first human ancestors (loss of the right of ownership towards God's created world). As a result, humanity's food problem existed anywhere and any time in history. Phenomenons such as "slave labor," class society, North-South division, pragmatism, greed, and materialism also arose as a result.

**The Essence:** The loss of ability to govern all things due to humanity's fall (Gen: 3.1-19)

**The Result:** Mankind is dominated in turn by all things

The food problem is a central phenomenon caused by the loss of humanity's ability to have the dominion over all things. This is because food is a major source of external life element and a nutrient for physical growth.

**Spiritual Body:** Life Element and Vitality Element

**Physical Body:** Living Spirit Element and nourishment (including water, air, and light)

The first assumption then, in order to resolve the food problem, is to solve the problem of human fall. That is, we must completely restore the 1st and the 2nd Blessings, and at the same time realize the restoration of humanity's dominion over all things (restoration of the 3rd Blessing). After the fall, humanity has been enslaved to food and money. The resolution to food problem signifies the reclaiming of humanity's ownership over the creation.

## Full Resolution to the Food Problem

Food includes vegetables, grains, and animal meat from land, and seafood that comes from the sea. However, recent revelations from nutrition sciences point to the fact that best nutrients for human body come from seafood. Omega-3, recently collection attention, is said to only be found inside seafood. According to an announcement from WHO (World Health Organization), the average life expectancy of Japanese people, who are known to intake more seafood protein than others, is the longest in the world.

Originally, God created the world to resemble human body structure, and just as human body is comprised of 2/3 water, the earth's surface is covered 2/3 by water. Therefore, we come to the conclusion that it is healthy for a human being to live 2/3 of his/her life involved with the sea, and eat seafood 2/3 of the time.

In this sense, we find that ocean can provide the best food, and enough food for a human being's earthly life, and that the key to resolving the food problem lies there. However, when we stand in the position to figure out how to provide the whole human race this seafood as sufficient and healthy food source, the key lies in how we can harvest quality and large amount of seafood without destroying the environment.

True Parents have called this industry the Ocean Hobby Industry, and its bases placed by coastlines the Ocean Hobby Industry Model Base/City. It is a place where Blessed Families will live and work at. This industry will be ingeniously developed by blessed second/third generations that has been blessed by God, and with the Completed Testament Industrial Revolution, it will usher in an age Ocean Hobby Industry lifestyle with the highest degree of productivity. By doing so, the food problem will no longer exist on earth, and a society of "mutual existence, mutual prosperity and mutual righteousness," in other words, the kingdom of heaven on earth, will be established.
